NOTE FOR:
Executive Director, CIA

SUBJECT: NSC Staff Interest in the NITs

Attached for your information is correspondence reflecting the increased emphasis the NSC Staff is now placing on the National Intelligence Topics (NITs) of Current Interest as guidance for intelligence producers. Unlike most of the policy elements re-presented on the SIG(I) Committee on Intelligence Priorities, the NSC Staff is closely monitoring the Intelligence Community's responsiveness to topics (i.e., international terrorism, foreign leaders and factions) they identified in the latest NIT document as being of priority concern.
